

Department of Treasury

Roles with the Project to Develop Government Debt Markets

The Project's goal is to implement the three most important, feasible improvements to the Government Debt Market as identified by investors, Treasury and Bank of Papua New Guinea (BPNG):

1. Better coordination between Treasury, BPNG, Petromin and the Independent Public Business Corporation including implementing publicly available Memorandum of Understandings regarding roles and accountabilities
2. More frequent, timely and standardised reporting on the Government's debt portfolio meeting IMF debt data dissemination standards
3. Incremental improvements in the processes and products underpinning the Inscribed Stock, Treasury Bills and Loan Markets, such as the feasibility and the processes required to list on Port Moresby Stock Exchange and other improvements already identified by stakeholders.

The Project is overseen by a Steering Committee comprising Treasury, Bank of PNG and senior executives of local financial institutions.

Selection Criteria

Project Manager

- Several years experience in and knowledge of capital markets, ideally working with a financial institution who is a registered bidder for Treasury Bills and Inscribed Stock
- Experience in and demonstrated ability to manage projects
- Tertiary qualifications, ideally in economics and finance
